LAZY BILL.

The finest coffee substitute ever made has recently been produced by Dr. Shoop of Racine, Wis. You don't have to boil it twenty or thirty minutes. Made in a minute says the Dr. Health coffee is really the closest coffee imitation ever yet produced. Not a grain of real coffee in it either. Health coffee imitation is made from pure toasted cereals or grains, with malt, nuts, etc. Really it would fool an expert, were he to unknowingly drink it for coffee. Sold by D. C. Spencer.

A TALENTED WRITER.

MRS. E. M. TINNEY.

Mrs. E. M. Tinney, story writer, 325 E. Nueva St., San Antonio, Tex., writes:

"During 1901 I suffered from nasal catarrh, which various other remedies failed to relieve.

"Six bottles of Peruna, which I took, entirely cured me, the catarrh disappearing and never returning.

"I therefore heartily recommend Peruna to all similarly afflicted."

Mrs. Ellen Nagle, 414 4th street, Green Bay, Wis., writes:

"I have often heard Peruna praised and it is more widely known here than any other medicine, but I never knew what a splendid medicine it really was until a few weeks ago when I caught a bad cold which settled all over me.

"The doctor wanted to prescribe, but I told him I was going to try Peruna and sent for a bottle and tried it.

"I felt much better the next morning and within five days I had not a trace of any lameness or any cough.

"I consider it the finest cough remedy."

PERUNA TABLETS—Some people prefer to take tablets, rather than to take medicine in a fluid form. Such people can obtain Peruna tablets, which represent the solid medicinal ingredients of Peruna. Ask your druggist for free Peruna Almanac for 1904.

LOARS OLD STAND

Farmers in the Southwest are getting rich on the increasing value of their farms.

Not so very many years ago Illinois and Iowa land sold for ten dollars an acre. More recently Nebraska lands sold at that price. Look at them now. What makes them so high? The land is no better than it was then. What caused the price to go up? People—nothing but people, and lots of them. History will repeat itself in the Southwest—only it will not take so long. The Southwest is growing very fast; much faster than any other section of the United States. The land in the Southwest is just as good as Illinois, Iowa or Nebraska land. But there is more land than there are people, that's the only reason it's so cheap. How long do you think it will take the Southwest to get as many people to the farm acre as Illinois or Iowa have? Just about five years—ten at the very outside. When that time comes you will have to pay just as much for land in the Southwest as you would pay in Illinois or Iowa.

Why not buy your farm in the Southwest now—when you can get it cheap—cheap enough for you to get a big one? A few years hence you will be looked upon just as the man who owns 640 acres in Illinois is looked upon to-day—as a substantial, well-to-do, leading member of your community.

The low rate excursions via the Rock Island-Prisco Lines the first and third Tuesdays of each month, offer you an opportunity to see the Southwest at very little cost. Take this opportunity to get away from the cold for a few days, and enjoy the delightful weather the Southwestern farmer is having.

Let me send you some interesting literature about the Southwest to read these long evenings. Our books about Missouri, Kansas, Arkansas and Oklahoma are full of photographs and reliable information—the very information a man thinking of settling in one of these states ought to have. I'll send you absolutely free any of these books you want.

The Rock Island-Prisco Lines have no lands for sale and are only interested in getting good, energetic settlers for the fertile, uncultivated lands along their lines. To such men every help possible is freely given. Write today and let us help you find a better location.
